Case Study

**Stainless Steel
Awning Frame
Cleaning & Coating**

ISSUE Tea stained stainless steel balcony framework.

APPLICATION

Pre clean with **Stainless Steel Cleaner** and coating using **Vitroglaze**.

Stainless Steel Cleaning & Coating

CLEANING – Stainless Steel Cleaner

Removes Tea Staining & Corrosion.

Cyndan Stainless Steel Cleaner is a Heavy Duty cleaner specifically formulated to remove tea staining & corrosion common to stainless steel surfaces exposed to the elements.

It chemically brightens the surface to an 'as new' state.

Great for use on balustrading, commercial kitchens, tanks and any stainless steel surface.

It is highly recommended that following the cleaning of the surface with Stainless Steel Cleaner, you follow with an application of Stainless Steel Sentry or Vitroglaze to seal and protect the Stainless Steel from further corrosion.

Use on:

- ✓ Balustrading
- ✓ Railings
- ✓ Commercial Kitchens
- ✓ Tanks
- ✓ All Stainless Steel Surfaces

Stainless Steel Cleaning & Coating

VITROGLAZE
The clear solution

COATING – Vitroglaze

Protective glass coating to seal glass, ceramic and stainless steel

The seemingly smooth surface of glass consists of microscopic ridges and valleys which creates a favourable environment for the build up of contaminants such as soap scum, hard water deposits and grime.

In time, the glass surface will visibly dull and become difficult to clean. This will result in high maintenance and premature replacement costs due to deterioration.

Vitroglaze is a permanent coating that prevents the adhesion and build up of contaminants onto the glass surface. It also provides water and oil repellent properties.

Working similar to non-stick cookware, your glass become easier to clean, without the need for harsh chemicals. ***Vitroglaze* saves up to 90% of your valuable time** and that translates to a considerable financial saving.

*Part of the Cyndan Green Range
Suitable for use in food preparation areas*

Prevents Etching & Deterioration, caused by:

- Salt spray
- Chlorine
- Pollution
- Hardwater deposits
- Contaminants

Use on:

- ✓ Glass buildings
- ✓ Marine glass
- ✓ Balustrading
- ✓ Shower screens
- ✓ Tiles & vitreous surfaces
- ✓ Stainless Steel to guard against tea staining & corrosion

RESULTS

TESTIMONIAL

Dear Caan,

Thank you for the excellent and courteous service provided by 'Cyndan Master Touch' to restore the tea stained balcony framework at my house in Avalon back to the original polished stainless steel.

Sincerely

John Dezarnaulds, Avalon Sydney NSW
